INTRODUCING:

In partnership with:

Chaffey College

CONTROLS SYSTEMS TECHNOLOGY: CORE
This course is for students interested in engineering, distribution and logistics product development, building and construction trades. In this lab simulation environment, students will gain the foundational knowledge needed to enter various careers. Topics such as construction math, blueprints & drawings analysis, power tools, safety materials handling and basic employability skills will be covered within this course. Students who successfully complete this course in addition to Level I in the summer, will have the opportunity to earn certifications in:

- CAL OSHA Safety Card
- Multiple NCCER (National Center for Construction Education and Research) Certifications

REQUIREMENTS: STUDENTS MUST BE IN THE 11TH AND 12TH GRADES

PATHWAY INCLUDES:
- CORE - Jan. 26th - June 7th (Spring 2016) (90 hours/5 credits)
- Level I - Dates TBD (Summer 2016) (180 hours/10 credits)
- Level II - Offered through Chaffey College
- Industrial Electrical Technology - Offered through Chaffey College
- GET HIRED! $12-$18 hourly to start your career in Engineering, Advanced Manufacturing/ Product Development, Distribution, Logistics, or Construction Trades.

CLASS LISTED UNDER BUILDING TRADES & CONSTRUCTION INDUSTRY SECTOR - PAGE 3

EMR II
Students will build upon the knowledge and skills learned in the entry level course Emergency Medical Responder. Students will receive advanced instruction and training on the health and well being of others when responding to the scene of a Medical or Trauma Emergency.

EVENT PLANNING
This course prepares students with skills, attitudes and knowledge needed for employment in event-planning occupations. Instruction includes planning parties, showers, receptions, reunions; as well as financial transactions; salesmanship guest services and customer satisfaction; culture and customs and planning specialized events to include themes, timelines, budgets, and for specific audiences.

3-D MEDIA DESIGN 1
Student learn to code and test animations; implement standard graphics programming techniques for object movement that mimic the laws of physics; know and understand algebraic equations underlying the paths of moving objects; know and understand the 2- and 3-d transformations: translation, rotation, reflection and scaling; implement effective graphics and graphical user interfaces.

COMPUTER PROGRAMMING AND GAME DESIGN
This online course explores the history, art, and science of the game development process through hands on projects. Students work in teams to design and program custom games in both 2D and 3D environments. The course examines 3D modeling, 2D animation, level design, sound effects, player psychology, mathematics for gaming, and game logic/programming.

SCHEDULE IS TENTATIVE & SUBJECT TO CHANGE
TO REGISTER CONTACT YOUR CAREER TECHNICIAN ON YOUR HIGH SCHOOL CAMPUS.
PRIVATE SCHOOL AND OUT-OF-DISTRICT STUDENTS PLEASE CALL (909) 980-6450.

1 1/21/2016
AG SALES AND MARKETING
This course will develop student knowledge and skills in agricultural sales and marketing, commodity marketing, agricultural economics, and international agriculture. Instruction includes: starting an agribusiness, developing a marketing plan, pricing, advertising, and selling products and services, communicating with customers, basic economic principles, the international agribusiness economy, and career opportunities. Skills will be enhanced in math, reading, comprehension, communications, and writing through agricultural applications. Focus will be on computer and workplace skills.

#3140421 M, T, TH, F 1:30-2:30PM 01/25/16-06/09/16 (10 CR) YR.

AGRICULTURE & NURSERY
In this introductory course of Landscape and Turf Management students will be provided with the knowledge and skills related to the establishment and maintenance of landscape and turf in residential settings. Students will select appropriate species and plant materials to design, install, and maintain interior and exterior plantings, and hardscapes; and will maintain facilities and equipment associated with landscape and turf maintenance.

COMBO WITH LANDSCAPE DESIGN

LANDSCAPE & TURF MANAGEMENT

FLORICULTURE & FLORA
Students will learn about food production, management, ecology, as well as soil science related to the food supply chain. Students will be provided with the knowledge and skills required to manage an ornamental garden, orchard, and native landscape. Students will partner with the Claremont Colleges' Plant Justice Program to develop and enhance leadership skills, for career exploration and reinforcement of academic concepts. Weekly topics may cover issues such as public health, soil science, the plant life cycle, irrigation, pest and weed management, food and fiber processing, and the social, political and ecological issues surrounding current and future food system.

#3140110 M, T, TH 4:00-6:30PM LAB. W 2:00PM–3:30PM 01/25/16-06/09/16 (10 CR) SEM.

FLORICULTURE & FLORAL DESIGN
This course will teach students professional florist skills and build solid career experiences in floral design, display and marketing. The student will learn proper care and handling of flowers, plant foliage, how to evaluate floral materials and arrangements. Students will receive instruction on proper utilization of floral tools, supplies and products and will apply design principles to the floral medium.

COMBO CLASSROOM INCLUDED– MUST BE 16 YRS

LANDSCAPE DESIGN
This course builds upon the skills and knowledge learned in Landscape & Turf Management and is designed to prepare students for entry-level jobs in landscape and nursery occupations. Students will also learn the safe use of chemicals and fertilizers used in landscape gardening. Students will be equipped with the knowledge and skills necessary to establish and maintain not only landscape turf and turf in residential settings, but in commercial settings as well.

#2325161 COMBO CLASS WITH ADVANCED VIDEO PRODUCTION

VIDEO PRODUCTION
This course covers the history and development of the cinema, and other media and film technologies. Students learn skills in various aspects of cinema and video production by applying the elements of art, principles of design, integration of technology for the effective visual communication of their ideas, feelings, and values. Students develop skills, including camerarecording operation, idea development and communication, the mechanics of editing, script writing/text creation, light and sound. Meets “F: Visual & Performing Arts” Criteria b UC b’g’ Requirements

STAGE 1 INTRO TO STAGE TECHNOLOGY
This course introduces the techniques and processes involved in stage management, prop construction, lighting, setup and operation of sound systems, and the operation of projection equipment. The program develops basic construction techniques for stage property and scenery, affords practical experience in stage crew work, which includes the erection and striking of scenery; and provides an overview of occupations in radio and television.

ADVANCED MASONRY/BUILDING TRADES
This course prepares students for entry level positions in the field of Masonry. Students will gain insight into the masonry trade including the history and origins of masonry construction, tools and equipment, safety, basic fundamentalst of mortar preparation and application, and the use of various masonry products. Block masons build walls, partitions, arches, chimneys, and other structures. Integrated throughout the course are Academic and CTE standards, which include safety, communication, technology, ethics, career planning and other employability skills.

CAREERS IN EDUCATION
This course prepares students to assist with instructional activities and introduces a variety of careers in education. Students study such topics as standards and licensing regulations; operational procedures; emergency and disaster procedures; positive interaction, guidance and discipline; developmentally appropriate practices; nutrition; health and safety; instructional assistance; supervision; recreational activities; clerical work; use of computers and educational technology; and professionalism.

PEDAGOGIC FIRST AID CPR/HEARTSAVED CERTIFIED
COMMUNITY CLASSROOM INCLUDED—MUST BE 16 YEARS
CAREER TRAINING CENTER RM #202
#3144010 M-F 3:30-6:30PM 01/19/16-05/27/16 (15 CR) SEM. Meets 2 credits as Exploratory for UC "ag" Requirements

CAREERS IN CHILD DEVELOPMENT
Students prepare for employment in the care and guidance of young children under the supervision of professionals. In- struction includes growth and development; nutrition; program planning and management; health and safety; recreational and educational activities. Students will need to develop appropri- ate practice; interpersonal relationships; regulations; policies; supervision and maintenance of children’s environment; profes- sionalism; and classroom management.

INTRODUCTION TO HUMAN SERVICES
This online course examines career opportunities and the nature of helping, by identifying significant issues in the field of human services. Includes, instruction in the skills required by human service professionals.

CAREER TRAINING CENTER RM #201
#3158000 S 8:00AM-10:00PM 01/16/16-05/28/16 (5 CR) SEM.

ENERGY, ENVIRONMENT & UTILITIES
ENVIRONMENTAL SERVICES SYSTEMS
Students enrolled in this course will be introduced to career opportunities in natural resource management and related industries. Topics include soil conservation, water management, air pollution, waste disposal, wetlands, recycling and management, design, construction, maintenance, etc.

CAREER TRAINING CENTER RM #201
#3154010 M-W 3:30-6:00PM 01/16/16-05/28/16 (5 CR) SEM.

NATURAL RESOURCE SYSTEMS
This online course will help students develop leadership and communications skills with a focus on opportunities in the food, fiber, and natural resource industries. Topics include: agricultural and natural resource systems, water quality tests, maintaining watersheds, recycling and management, design, construction, maintenance, etc.

CAREER TRAINING CENTER RM #201
#3154010 M-W 3:30-6:00PM 01/16/16-05/28/16 (5 CR) SEM.

ARCHITECTURAL DRAFTING
This instructional program prepares individuals for a variety of careers related to the field of architecture. In addition to skills necessary to support architects and/or architectural engineers in the development of plans for buildings or other structures while complying with a variety of building codes and zoning laws, staying within cost limitations, and satisfying client preferences.

CAREER TRAINING CENTER RM #202
#3152420 TH 4:05-5:30PM 01/07/16-05/19/16 (5 CR) SEM. OPEN TO ADULTS

APARTMENT & HOME REPAIR/REMODELING
This course provides students with the skills needed for making structural repairs to apartments and homes. It comprises hands-on training in carpentry, plumbing, electricity, plastering, painting, and flooring. In addition, students are taught how to interpret construction blueprints and estimate the costs of repair and remodeling.

COMBO WITH RESIDENTIAL & COMM CONSTRUCTION

Students will create, modify and edit documents used in businesses to project profit and loss information and advertisements.

CAREER TRAINING CENTER RM #201
#3146500 M & F 3:30-5:30PM 01/16/16 (10 CR) SEM.

PROGRAMMING AND GAME DESIGN

This course explores the art, science and game development process through hands on projects. Students will learn about and work with Excel and Access to develop databases and implement a mobile/Internet application. Students will also demonstrate knowledge of how to select the appropriate technology to address business needs.

CAREER TRAINING CENTER RM #201
#3146500 M & F 3:30-5:30PM 01/16/16 (10 CR) SEM.

INTRODUCTION TO INFORMATION TECHNOLOGY

Students will identify the basic components and structure of computer systems and will plan, design and implement a mobile/Internet application. Students will identify various operating systems found on desktops, laptops and mobile devices.

CAREER TRAINING CENTER RM #201
#3146500 M & F 3:30-5:30PM 01/16/16 (10 CR) SEM.
It prepares students for basic fabrication and assembly tasks. This introductory course prepares students to use both gas and electric welding equipment and apparatuses, fire protection and safety systems, and First Aid, prevention of disease transmission, along with an understanding of ethical and legal considerations. It also prepares students for fighting fires and extinguishment methods.

This intermediate level course builds upon concepts learned in the previous course and extends learning to include topics such as: pre-press operation, digital imaging and scanning operations, digital printing and screen printing, laser etching, binding, and dye sublimation printing. Using professional design software, such as the Adobe Creative Suite, and Macintosh, students will create products based on their own ideas. Students will also participate in the creation and production of "real world" jobs. As part of a team, students will gain technical expertise and important employability and customer service skills including scheduling, estimating, and quality control.

This course covers the full spectrum of marketing concepts, and why target marketing and knowing customer needs is a competitiveness factor for business. Overview of product, place, price and people. Distinguish between the different components of marketing, including research, customer service, sales promotion, advertising, branding, e-commerce, public relations.

This advanced course provides students with an in-depth look at marketing concepts, strategies and products, included in Marketing 1. Students will develop a marketing campaign and write a marketing plan. COMMUNITY CLASSROOM MUST BE AT LEAST 16 YRS OLD COMBO CLASS WITH MARKETING 2.

This online course details the importance of small business in the economy and the many aspects of running a small business. Students learn the principles and methods of organizing a business firm and for combining resources to produce goods and services, taking account of costs, profits, and the nature and extent of competition in markets.

In this course students establish and run a simulated business to prepare them for working in a global business environment. Meets "g" "Elective" criteria for UC "a-g" Requirements.

This course introduces students to careers in criminal justice system. Crime scene investigation, criminal procedures, criminal law and firearms training. Meets "g" "Elective" Criteria for UC "a-g" Requirements.
INTRODUCTION TO LAW, POLICE SAFETY, CORRECTIONS AND SECURITY

This online course will teach students how to interpret the difference between the public sector criminal justice system and private security. Students will take a close look at Government Separation of Power and procedures and will examine how laws and statues are developed to safeguard society. Students will learn about the core functions of public safety in the United States.

FREQUENTLY ASKED QUESTIONS (FAQ’S)

WHAT IS COMMUNITY CLASSROOM?
Community Classroom is unpaid training at a job site. Training usually takes place during your class hours. It is your responsibility to secure transportation to and from the site. Student must be at least 16 years old.

HOW DO I ENROLL?
Register with your career technician on your high school campus or call 909-980-6490. Adults, please call 909-947-3400, ext. 1300. (NOTE: You must attend class on the first day or you may be dropped.)

IS THERE A FEE FOR ROP CLASSES?
As of July 1, 2015, BVROP is no longer direct-funded by the State of California. BVROP is now funded by our member districts, as a service provider supporting their local control accountability plans (LCAPs).

Our agreement with our member districts for these funds provides that ROP/CTE services are reserved for students attending high schools, continuation high schools, and alternative high schools belonging to Chaffey JUHSD, Chino Valley USD, Claremont USD, and Upland USD.

All other grade 9-12 students or school entities may access BVROP services by contacting Forest DeRenzo, Assistant Superintendent of Educational Services (forest_derenzo@bvrop.org) to obtain the fee-for-service costs and registration protocol.

Adult students may register on a fee basis at our Career Training Center, 1501 S. Bon View Avenue, Ontario, CA 91761.

CAN I ENROLL IN MORE THAN ONE COURSE?
Yes. You can enroll in multiple courses as long as the class schedules do not conflict.

WILL I RECEIVE A CERTIFICATE?
Yes. You must earn a “C” or better at completion of your ROP class to receive a certificate.

CAN I RECEIVE COLLEGE CREDIT?
Yes. Several classes have articulation agreements with our neighboring community colleges. Most courses require a score of at least 80% on the final and/or articulation exam, a final course grade of “B” or higher, and enrollment with the community college upon high school graduation. Please consult with the teacher for specific steps and grading criteria.

IS THERE AN AGE REQUIREMENT?
Some classes have an age requirement. Courses which have requirements and/or prerequisites can be found at the conclusion of each course description.

CAN MY STUDENT ATTEND CLASS AT A DIFFERENT DISTRICT OR CAMPUS?
Student must receive prior approval from the Administrator of the campus where the class is being offered. Contact your school Career Technician.
