INTRODUCING:

In partnership with: Chaffey College

CONTROLS SYSTEMS TECHNOLOGY: CORE
This course is for students interested in engineering, distribution and logistics product development, building and construction trades. In this lab simulation environment, students will gain the foundational knowledge needed to enter various careers. Topics such as construction math, blueprints & drawings analysis, power tools, safety materials handling and basic employability skills will be covered within this course. Students who successfully complete this course in addition to Level I in the summer, will have the opportunity to earn certifications in:

- CAL OSHA Safety Card
- Multiple NCCER (National Center for Construction Education and Research) Certifications

REQUIREMENTS: STUDENTS MUST BE IN THE 11TH AND 12TH GRADES

PATHWAY INCLUDES:
- CORE - Jan. 26th - June 7th (Spring 2016) (90 hours/5 credits)
- Level I - Dates TBD (Summer 2016) (180 hours/10 credits)
- Level II - Offered through Chaffey College
- Industrial Electrical Technology - Offered through Chaffey College
- GET HIRED! $12-$18 hourly to start your career in Engineering, Advanced Manufacturing/ Product Development, Distribution, Logistics, or Construction Trades.

CLASS LISTED UNDER BUILDING TRADES & CONSTRUCTION INDUSTRY SECTOR - PAGE 3

EMR II
Students will build upon the knowledge and skills learned in the entry level course Emergency Medical Responder. Students will receive advanced instruction and training on the health and well being of others when responding to the scene of a Medical or Trauma Emergency.

EVENT PLANNING
This course prepares students with skills, attitudes and knowledge needed for employment in event-planning occupations. Instruction includes planning parties, showers, receptions, reunions; as well as financial transactions; salesmanship guest services and customer satisfaction; culture and customs and planning specialized events to include themes, timelines, budgets, and for specific audiences.

3-D MEDIA DESIGN 1
Student learn to code and test animations; implement standard graphics programming techniques for object movement that mimic the laws of physics; know and understand algebraic equations underlying the paths of moving objects; know and understand the 2D and 3D transformations: translation, rotation, reflection and scaling; implement effective graphics and graphical user interfaces.

COMPUTER PROGRAMMING AND GAME DESIGN
This online course explores the history, art, and science of the game development process through hands-on projects. Students work in teams to design and program custom games in both 2D and 3D environments. The course examines 3D modeling, 2D animation, level design, sound effects, player psychology, mathematics for gaming, and game logic/programming.

SCHEDULE IS TENTATIVE & SUBJECT TO CHANGE

INTRODUCTION TO ANIMATION

This course introduces students to the artistic and technological foundations to create animated presentations for industry and entertainment. Students will develop basic drawing and design skills, learn the fundamentals and physics movement, the concept of communication to a given audience, and techniques for self-expression through a variety of animated formats. They will explore the careers and requisite skills required by animators in both entertainment and the business world.

CAREER TRAINING CENTER RM #101 01/14/16-6/06/16 (10 CR) YR.

MUST BE 16 YRS
STAGE 1 INTRO TO STAGE TECHNOLOGY
This course introduces the techniques and processes involved in stage management, prop construction, lighting, setup and operation of sound systems, and the operation of projection equipment. The program develops basic construction techniques for stage property and scenery, affords practice in stage crew operation, and includes an understanding of the elements of technical production during a theatrical production. Students will learn to write, code manually, use graphical user interfaces (GUI) to create web pages, and create multimedia projects.

STAGE 2 INTERMEDIATE STAGE TECHNOLOGY
Students will be trained in the use and management of the various elements of technical production during a dance, music, or theatrical performance. These elements include the rigging and movement of sets, scenery, and lighting equipment, the use of computerized switching systems for lighting and sound, and the management and distribution of stage properties, etc. Students will learn to manage the complex support tasks that are involved in a performance.

STAGE 3 DESIGN & PRODUCTION
This instructional program will build on foundation skills in Stage Technology and Production to include design in variety of theatrical productions. Students will be familiar with design elements, drafting techniques, computer software, and modeling skills necessary to prepare designs and models of theatrical sets.

STAGE 4 ARTS MANAGEMENT
Students will use analytical skills to interpret literary material to create a design concept. They will be trained to interpret chemical drawings to safely use appropriate power equipment to construct the design. They will become familiar with the various array of production materials and techniques necessary to augment live theatrical productions.

CLAREMONT HS AUDITORIUM

## Online CTE Lab

In partnership with Odysseyware, Baldy View ROP is offering an Online CTE Lab program. Learners will attend class daily in a computer lab. Students will choose any of the following courses and receive five (5) credits upon completion. An instructor will be available to assist students during lab hours.

### Environmental Service Systems
- Fundamentals of Digital Media
- Introduction to Hospitality and Tourism Systems
- Introduction to Human Services
- Introduction to Information Technology
- Introduction to Law, Public Safety, Corrections and Security
- Natural Resources Systems
- Office Applications 1—MS Word, PPT, Publisher
- Office Applications 2—MS Excel, MS Access
- Principles of Business and Finance
- Security and Protective Services
- Small Business Entrepreneurship
- Technology and Business

Transportation and Tours for the Traveler

## How to Read Our Schedule

**Industry Sector**: The sector where the course is taught is indicated.

**Course Title**: The title of the course is listed.

**Course Description**: A brief description of the course is provided.

**Prerequisites**: The prerequisites for the course are listed.

**Meeting Days and Times**: The days and times the course will meet are listed.

**Section Number**: The section number of the course is listed.

**Course Length and Credit Amount**: The length of the course and the number of credits awarded are listed.

**Denotes CTE Online Lab Course**: Courses marked with this symbol are online lab courses.

**Denotes Online CTE Lab Course**: These courses are designed for online learning, with lab components included.
FREQUENTLY ASKED QUESTIONS (FAQ’S)

WHAT IS COMMUNITY CLASSROOM?
Community Classroom is unpaid training at a job site. Training usually takes place during your class hours. It is your responsibility to secure transportation to and from the site. Student must be at least 16 years old.

HOW DO I ENROLL?
Register with your career technician on your high school campus or call 909-980-6490. Adults, please call 909-947-3400, ext. 1300. (NOTE: You must attend class on the first day or you may be dropped.)

IS THERE A FEE FOR ROP CLASSES?
As of July 1, 2015, BVROP is no longer direct-funded by the State of California. BVROP is now funded by our member districts, as a service provider supporting their local control accountability plans (LCAPs).

Our agreement with our member districts for these funds provides that ROP/CTE services are reserved for students attending high schools, continuation high schools, and alternative high schools belonging to Chaffey JUHSD, Chino Valley USD, Claremont USD, and Upland USD.

All other grade 9-12 students or school entities may access BVROP services by contacting Forest DeRenzo, Assistant Superintendent of Educational Services (forest_derenzo@bvrop.org) to obtain the fee-for-service costs and registration protocol.

Adult students may register on a fee basis at our Career Training Center, 1501 S. Bon View Avenue, Ontario, CA 91761.

CAN I ENROLL IN MORE THAN ONE COURSE?
Yes. You can enroll in multiple courses as long as the class schedules do not conflict.

WILL I RECEIVE A CERTIFICATE?
Yes. You must earn a “C” or better at completion of your ROP class to receive a certificate.

CAN I RECEIVE COLLEGE CREDIT?
Yes. Several classes have articulation agreements with our neighboring community colleges. Most courses require a score of at least 80% on the final and/or articulation exam, a final course grade of “B” or higher, and enrollment with the community college upon high school graduation. Please consult with the teacher for specific steps and grading criteria.

IS THERE AN AGE REQUIREMENT?
Some classes have an age requirement. Courses which have requirements and/or prerequisites can be found at the conclusion of each course description.

CAN MY STUDENT ATTEND CLASS AT A DIFFERENT DISTRICT OR CAMPUS?
Student must receive prior approval from the Administrator of the campus where the class is being offered. Contact your school Career Technician.
