CSF Qualifications

In order to prove that your name has been left off the CSF list in error, you must
1) Print out your grades from LAST semester (they will be checked against the counselor’s records)
2) Follow the instructions to complete the calculations, which will determine if you qualify for CSF
   (it is more than just a specific GPA)
3) Attach this form to your grade printout and deliver to the guidance office the WEDNESDAY
   BEFORE the deadline to pay. You will be notified if your calculations are, in fact, correct and
   you can sign up for CSF by the deadline.

To qualify for CSF you MUST:
- Not have ANY D’s or F’s
- Earn a total of at least 10 points in the distribution that follows:
  --4 points MUST come from List I
  --the next 3 points MUST come from Lists I or II
  --the last 3 points can come from Lists I, II, or III
PE, Teacher/Library Assistance, or any course taken in PLACE of PE does not count toward CSF
calculations

You can only use FIVE (5) courses (or 25 units) to achieve those 10 points

If you have a block schedule course (such as math, where you are in class for two periods at a
time) you may count that grade TWICE, but you can only use 4 courses to earn 10 points (still 25
units).

A=3 points
B=1 point
C=0 points

For an Honors or AP course, you may add one extra point (A=4, B=2) but you can only do that
for TWO courses. A “C” is still 0 points.
